

Reading and speaking

Te Taetae ni Kiribati

The Kiribati Alphabet consists of 13 letters.

The Vowels have the same pronunciation as other Pacific Languages including Te Reo Māori (Maori Language).

There are five vowels

	SHORT SOUND	LONG SOUND
Aa	As in 'ask' and 'dark'	March
Ee	As in 'elephant' and 'enter'	Egg
Ii	As in 'pit' and 'in'	Meat
Oo	As in 'ocean' and 'oat'	Door
Uu	As in 'blue and 'you'	Moon

The consonants consist of eight letters

Mm	As in 'number'
Nn	As in 'in'
Ng	As in 'sing'
Bb	As in 'be'
Kk	As in 'gift'
Rr	As in 'tree'
Tt	As in 'sea'
Ww	As in 'we'

Special Consonants

Nasals - M N Ng

Like the vowels, the nasal sounds may also occur lengthened, which may provide some difficulty for English speakers.

This is another area in which spelling systems do not agree, often failing to indicate the additional length. For the most part these sounds are similar to those occurring in English.

In the 'NG' consonant, we can start, end, and use it in the middle of a word. E.g. Ngare (laugh), 'kangkang' (delicious) and 'eng' (yes). In the English language, NG is used in and at the end of a word. E.g. 'singing' and 'sing' but never start a word with NG except for nouns.

R – In te taetae ni Kiribati we roll the letter 'r'. For example 'Kiribati' is pronounced as 'g-i-dd-y-b-a-s'.

K – The letter 'k' is softened to a hard 'g' sound, as in 'gift'. Again, this is demonstrated well in the word 'Kiribati'.

T – The letter 't' makes a 'd' sound like when we say the word please - 'taiaoka' the english phoneme equivalent would be 'd-ay-o-g-a'.

I – When an 'i' follows a 't', it changes the 't' to an 's' sound.

Additional Consonants

mw mwa mwe mwi

bw bwa bwe bwi

These consonants are used to differentiate the sounds in:

'maku' (scared)

'umwa' (kitchen)

'bangke' (bank)?

'bwatere' (dance).

As in English:

'ma' in 'madam'

'mwa' in 'mother'

'ba' in 'badminton'

'bwa' in 'bar'.

Please note that in some parts of the Kiribati islands, these consonants cannot be used with the 'o' and 'u' vowels.
