To Whom it May Concern,

Please find this as an endorsement letter in support for *Jane Doe's* scholarship application. I think she would be an excellent candidate for this opportunity and hope that you are able to select her.

I have known *Jane* for the past 4 years in my role as her year 10 Dean at Phantom Bay College. *Jane* has been an excellent student who has created no pastoral concerns or incidents. All conversations with *Jane* over the four years have been centred around her awesome academic progress or support with her subject selections. I have also been fortunate enough to be her classroom teacher in L2 Health this year.

*Jane* shows incredible dedication to her work, always seeking and engaging with feedback to ensure she consistently produces work, checkpoints and assessments that can be graded to an Excellence level.

I think *Jane* would be suitable for this scholarship not only for her incredible work ethic and top-level results, but also because of her love and demonstration of her Pasifika heritage and culture. During Health lessons she often provides additional insight that broadens the horizons of other students due thanks to her willingness to share her Pasifika culture or explain some of the traditions that could influence people's decisions.

Furthermore, *Jane* has been heavily involved over her years at Phantom Bay College in the school's promotion and work towards cultural week and various Pasifika language weeks over the course of each year.

I hereby fully endorse *Jane* as a candidate for a Toloa Scholarship.

If there is any further information you require, please do not hesitate to ask.

Ngā mihi

*Joe Bloggs*
