# Te Gagana Tokelau | Tokelau Language

The Tokelau alafapeta (alphabet) is made up of fifteen mataituhi (letters). The letters of the alphabet are:

**a, e, ī, o, u, f, g, k, l, m, n, p, h, t, and v**

There are five vaueleli (vowels):

These vaueleli have the same pronunciation as other Pacific languages, including te reo Māori (Māori language). Vaueleli can be short or long (the long vowel sound is indicated with a macron).

**a, e, ī, o, u**

(as in the English: are, there, three or two)

**ā, ē, ī, ō, ū**

(as in the English: father, egg, feet, thought, loot)

It is important that the short and long vowel sounds are used, as they distinguish between different words – e.g. mātua (mother) matua (to be a grown up).

Gagana Tokelau has ten konehane (consonants):

**f, g, k, l, m, n, p, h, t, and v**

The Gagana Tokelau: is much like in English, except that:

- 'f' is pronounced like 'hw' you make the 'h' sound at the back of your throat and then constrict the sound so that it becomes a 'w'. As an example, fakalogo (to listen) sounds like 'h-wa-ka-longo'
- 'g' is pronounced with a 'n' sound in front of 'g' – making it a 'nga' sound, as in te reo Māori, or the 'ng' sound from the English word 'song'. As an example tagi (to cry) is pronounced 'tangi'

- 'h' is pronounced like 'hy' in words such as hau (to come) which sounds like 'hy-au'

The Tokelau Dictionary (1986) was published by the Office of Tokelau Affairs. It uses the following alphabetical order.

Tokelau and English words are provided below to support your teaching and learning.

## Tokelau Alafapeta | Tokelau Alphabet
